CONSOLIDATED CHECKLIST C6 Part 1 of 5 parts

Interim Status Standards for Owners and Operators of Hazardous Waste Treatment, Storage, and Disposal Facilities 40 CFR Part 265, Subparts A-G, as of June 30, 1999 as published in the July 1, 1999 CFR

Note: Consolidated Checklist C6 is divided into 5 separate documents/computer files solely for ease of handling its printed and electronic versions. Consolidated Checklist C6 remains one checklist; States must adopt all five portions simultaneously to correctly use this Consolidated Checklist. Note, the prenotes and endnotes associated with each part have been placed with the part to which they apply.

This subsection was modified by 50 <u>FR</u> 28702, the final rule addressed by Revision Checklists 17 A - 17 S, but was not included in those checklists.

- The May 3, 1993 final rule (58 <u>FR</u> 26420, Revision Checklist 122) inadvertently removed a correction made by the August 25, 1992 <u>Federal Register</u> (57 <u>FR</u> 38558, Revision Checklist 111). The August 25, 1992 rule changed "subparts C, D, F, or G" to "subparts C, F, G, or H"; the May 3, 1993 rule listed the old version of these internal references. The correct reference is "subparts C, F, G, or H", as shown in the August 25, 1992 rule.
- States should adopt 265.1(c)(14)(i)-(iii) as appropriate to reflect the universal wastes adopted. See the rule for Checklists 142 A-D (60 <u>FR</u> 25492; May 11, 1995).
- The August 14, 1989 rule (54 <u>FR</u> 33376, Revision Checklist 64) amended the first sentence of 265.13(a)(1). However, because of a misinterpretation of the codification instructions, the second sentence of the provisions

40 CFR Part 265, Subparts A-G, as of June 30, 1999 (cont'd)

at this citation was omitted from the 1990 and 1991 CFRs. Revision Checklist 102 (57 <u>FR</u> 8086; March 6, 1992) corrected the error by restoring the mistakenly deleted language.

- Section 265.19 is considered to be both a HSWA and Non-HSWA provision by Revision Checklist 100. It is Non-HSWA only to the extent that it applies to the final cover requirements for the Construction Quality Assurance Program.
- Revision Checklist 54 removed the comment following 265.54(e).
- Base Program Checklist IV B originally introduced text at 265.75(h). Revision Checklist 30 introduced a new 265.75(h) and redesignated the old 265.75(h) as 265.75(j).
- 265.110(b)(2) was added by Revision Checklist 24. It was amended by Revision Checklist 28 to read as 265.110(b)(3) presently reads. Revision Checklist 52 added a new 265.110(b)(2), redesignating the old 265.110(b)(2) as 265.110(b)(3). Interestingly, the wording of the 265.110(b)(2) added by Revision Checklist 52 is the same as the wording of the 265.110(b)(2) added by Revision Checklist 24.
- There is a typographical error in the August 18, 1992 <u>Federal Register</u> (57 <u>FR</u> 37194, Revision Checklist 109) article for this rule. The internal reference to "264.1102" should be to "26<u>5</u>.1102".
- Revision Checklist 24 significantly revised the 265.112 section. Much of the original code (Base Program Checklist IV B) survived but was modified and also moved to different paragraphs/subparagraphs by Revision Checklist 24. Thus, when IV B appears in the Checklist Reference column for any of the 265.112 citations it, more frequently than not, indicates that the text of those citations is relevant to Checklist IV B while the actual citation number is not. For example, IV B appears as a checklist reference for 265.112(b)(4), (6) and (7), yet paragraph 265.112(b) was not broken down into subparagraphs (1)-(7) in code relevant to Checklist IV B. Footnotes at the paragraph level will indicate where the code appeared under the old formatting as per Base Program Checklist IV B.
- Many of the current requirements of 265.112(b) and (b)(1)-(b)(7), as designated and modified by Revision Checklist 24, were part of the base program at 265.112(a) and (a)(1)-(4). States which do not adopt the optional (less stringent) requirement at 265.112(b)(7) must be careful to retain the closure plan requirement for "an estimate of the expected year of closure" as first introduced into the base program as a portion of 265.112(a)(4).
- Part or all of the text of the following citations was introduced into the code at 265.112(b) as per Base Program Checklist IV B: 265.112(c), (c)(1), (c)(1)(i)-(ii), and (c)(2). Revision Checklist 24 modified this text and moved it from paragraph (b) to paragraph (c).
- Revision Checklist 24 designated the citations within the double lines as optional revisions (265.112(d)(1)-(d)(4)). Similar, more stringent and nonoptional provisions originated in the code at 265.112(c), (c)(1), (c)(2), and (d) as per Base Program Checklist IV B. If States choose to adopt the 265.112(d)(1)-(d)(4) optional provisions as per Revision Checklist 24, they must adopt them as a unit rather than by individual provision. In other words, all or none of the (d)(1)-(d)(4) provisions must be included in a State's code. The only exception for adopting States are the optional revisions subsequently made by Revision Checklist 64. These subsequent changes are less stringent than those addressed by Revision Checklist 24, so States may or may not make those changes. If a State chooses not to adopt the Revision Checklist 24 optional provisions, it must retain

40 CFR Part 265, Subparts A-G, as of June 30, 1999 (cont'd)

code equivalent to that found in the base program at 265.112(c), (c)(1), (c)(2), and (d).

- Note that the changes made by Revision Checklist 85 to 265.112(d)(2) and 265.113(a)&(b) were reversed by the August 27, 1991 (56 FR 42524; Revision Checklist 96) technical corrections to the Boilers and Industrial Furnaces rule. The language is, thus, the same as it was before the Revision Checklist 85 changes. Thus, effectively, the technical corrections addressed by Revision Checklist 85 for these citations were nullified by Revision Checklist 96.
- Note that the August 18, 1992 <u>Federal Register</u> (57 <u>FR</u> 37194, Revision Checklist 109) introduced an error into the second-to-last sentence of 265.112(d)(4) by inserting an extraneous "with" between "§§" and "265.111."
- Section 265.113 was erroneously designated as optional by the May 2, 1986 rule (51 \underline{FR} 16422). The June 26, 1990 (55 \underline{FR} 25976) amendment corrected this error.
- 17 Citations within the double lines are optional, but if a State chooses to modify its program to adopt requirements equivalent to these provisions, it must adopt such requirements as a unit rather than by individual provision. In other words, all or none of these provisions must be included in a State's code. Subsequent changes to these provisions may or may not be optional for States that have adopted the original unit of provisions. An optional sign appears in front of the subsequent revision checklist number(s) if such subsequent changes are less stringent than or reduce the scope of the original requirements.
- ¹⁸ Text from 265.118(a)(1-3) in Base Program Checklist IV B was moved to 265.118(c)(1-3) by Revision Checklist 24.
- ¹⁹ Text from 265.118(b) and (e) in Base Program Checklist IV B was moved to 265.118(d)(1-2) by Revision Checklist 24.
- Text from 265.118(c)(1-2) in Base Program Checklist IV B was moved to 265.118(e)(1-2) by Revision Checklist 24.
- ²¹ Text from 265.118(d) in Base Program Checklist IV B was moved to 265.118(f) by Revision Checklist 24.
- Text from 265.118(f)(1-2) in Base Program Checklist IV B was moved to 265.118(g)(1-2) by Revision Checklist 24.
- Revision Checklist 24 extensively revised 265.119 as per Base Program Checklist IV B, including a new section title. The original code contained no subparagraphs.
- The current text of 265.120 was introduced by Revision Checklist 24, whereas the original text of 265.120 as in the base program was moved to 265.119(b) by Revision Checklist 24.
